Aly El-Deen Yasser Ali

has successfully completed the online, non-credit Specialization

Tailwind CSS

In this Specialization, learners developed and applied core skills in responsive web design using Tailwind CSS. They gained expertise in creating visually engaging, reusable components such as product cards, pricing tables, and testimonials sections, while also building foundational projects such as a Pomodoro app, preferences form, and 404 error page. Through these projects, learners refined their ability to design adaptable interfaces for modern web development.
